

As part of its Corporate Social Responsibility, under the auspices of the Principal, IBM SkillsBuild conducted a training on November 9, 2022 at the auditorium of Government Aizawl West College, where it taught students managerial and soft skills for use in their future careers. This is done so that students have the tools they need to participate in internships, where they can gain valuable work experience, practice their interpersonal skills, and earn money.

Dr. John C. Lallawmawma, who has been tasked by **IBM Skills Build** with leading the training, is spearheading the effort as part of the nonprofit organization's ongoing efforts to better the lives of those in need.
