

## BEST PRACTICES

1. Besides the ongoing mentoring program, peer mentoring has been introduced from the academic session of 2018-2019. The college is the first college in Mizoram to introduce Peer Mentoring. Peer mentors were selected from the core students while the first semester students were the peer mentees. The faculty act as the supervisors for the peer mentors.
2. Legal aid clinic was introduced in the reporting year. The clinic is being run in collaboration with Mizoram State Legal Services Authority. Activities such as awareness programs are being organized for the students. Interested students are also trained as paralegals.
